TO : OTR Library -

DATE: 24 October 1955

25X1 FROM : OTR

25X1 SUBJECT: Lecture: "Methods, Procedures, and Functions"

25X1 You will undoubtedly be somewhat shaken to receive the attached lecture which carries not only a date but the name of the author! I have taken some notes from it for use in writing up in record form some of the lectures and readings which are a part of the basic course (these you will get as soon as we have completed them). This lecture is old but not without current value and it is probably best that you have the copy which is attached.
